Additional information

I have worked for 3 months in a land agency, where I had to contact the costumers and for 7 months in a customer service centre, where I had to control and manage household electrical appliances on security.

Since 2006 I have been working as a pollster: I conduct opinion-poll and consumer survey about foodstuffs quality like canned food, for instance, or interviewed habits. The work is about the interview of a sample group of people having the same features. Sometimes they have to taste some foodstuffs or test products at home and answer the questions, usually about the product's quality.

In 2006 and 2008 on election days I conducted surveys (Exit poll).
