| Document Title: | ISM-KA MSc programme Intended Learning Outcomes |
| Relevant Work package: | WP3 |
| Nature: | Description / overview |
| Dissemination Level: | PU |
| Document version: | Final |
| Date: | 25 June 2018 |
| Authors: | RSM |
| Document description: | This document provides an overview of the Intended Learning Outcomes of the ISM-KA MSc programme. |

Programme-level intended learning outcomes

- ILO 1: Identify and analyse diverse perspectives, stakeholders and interdependencies for decision and policy making in the area of international security management.
- ILO 2: Analyse and critically assess current and future security threats by applying the relevant principles, theories, methods and tools.
- ILO 3: Acquire expertise in the interdisciplinary* theories that are relevant for a holistic understanding of the security field.
- ILO 4: Co-create**, engage, implement and communicate practical solutions in complex security environments across sectors, borders and countries.

*Social, political, criminological

**Co-create reflecting, interdisciplinary, several actors to build or to design the solution
